FREESTANDING AND BTW BATHS

Freestanding and Back to Wall Baths are very popular in New Zealand.

They are modern, stylish and are made of high-quality sanitary grade acrylic sheet. The construction leaves a seamless finish which is smooth and so easy to clean.

What helps to make them easy to install is the included pop-up waste and flexible hose as standard.

The **Freestanding baths** are designed to be away from the wall where you can either use a pedestal bath mixer or mount the mixer in the wall with a suitably long spout.

Where as the **Back to Wall** (BTW) Baths are designed to be fitted like a freestanding bath but is against the wall to remove the space between the bath and the wall.

These baths give you a cleaner and tidier look to your new bathroom and they look great in any modern stylish bathroom.

The Freestanding and BTW baths come in many sizes from 1200 to 1700mm long, widths from 680 to 850mm and heights from 560 to 600mm.

Features of all models

- Are Easy cleaning with no joins
- Have Invisible seams
- Are Classy elegant and very stylish
- Built from High Gloss Acrylic
- Comes with a Flexible waste for easy installation
- Comes with Pop-up waste
